PROFESSIONAL SUMMARY

BSIT student with hands-on experience across game development, desktop utility apps, and web systems — from solo Unity 3D games to self-published macOS tools and Django-based web applications. Also skilled in motion graphics and video editing with Adobe After Effects and Premiere Pro. Seeking an IT internship to apply development, documentation, and creative skills to real software projects.

EDUCATION

Bulacan State University – Main City of Malolos, Bulacan
Bachelor of Science in Information Technology, Major in Web and Mobile Applications Development 2023 – Present

TECHNICAL SKILLS

Development: Game Development (Unity 3D), Web Development, macOS Utility Apps, Technical Documentation
Languages: C#, Python, HTML, CSS
Engines & Frameworks: Unity (Cinemachine, Animator Controller, Terrain), Django
Creative & Multimedia: Adobe After Effects, Adobe Premiere Pro, Adobe Photoshop
Systems & Tools: Windows Server 2019 (Active Directory, Group Policy, Shared Folders), UTM Virtualization, Figma, Vercel, Claude Code

PROJECTS

Fogbound - Lighthouse-Themed 3D Mystery/Thriller Game 2026
Solo Game Developer

- Designing and developing a multi-island atmospheric mystery game in Unity for Mobile Game Development 2, featuring a custom third-person character controller (idle, walk, run, crouch, jump/fall states), surface-based footstep audio, trigger-zone sound, a lantern system, environmental traps, and smooth scroll-wheel camera zoom, scoped to 6–7 islands using reusable island templates.

ClipShelf - macOS Clipboard Manager 2026
Independent Developer

- Developed and independently sell a lightweight Mac clipboard manager that keeps a full history of copied content while using minimal storage.

Mousey - macOS Mouse Navigation Utility 2026
Independent Developer

- Built a Mac utility that makes a standard mouse behave like Apple's Magic Mouse, mapping side buttons to tab switching so users no longer need the trackpad.

Dalo - Organization Event Registration and Attendance System 2026
Solo Developer

- Built a web system for student organization events with online registration, QR code check-in, attendance reports, and automatic e-certificate generation.

iLabCICT - Laboratory Maintenance and Technical Support Management System 2026
Documentation Lead (Capstone Team of 5)

- Led the capstone documentation for a system that digitizes maintenance ticketing, QR-based equipment access, computer inventory, repair history, reports, and role-based access for BulSU-CICT, built with React, TypeScript, Django REST API, and PostgreSQL and deployed on Vercel.

Campus Equipment Borrowing System - Inventory and Borrowing Web App 2026
Developer (Team of 5)

- Co-developed a Django web application for borrowing and tracking campus equipment for IT 401W Web Programming, working in a team with rotating leadership.

CERTIFICATIONS & PROGRAMS

Pearson - Information Technology Specialist in Python 2026
Google - Google Certified Educator Level 2 2026
Google - Google Certified Educator Level 1 2026
Google - Gemini Certified Educator 2026
Salesforce - Supported Virtual Internship Program 2026
Cisco - Network Addressing and Basic Troubleshooting 2025
